XJ207BB - Brushed Brass

VENEZIA COMFORT RIMLESS

Designed for comfort, this suite is 40mm higher than the conventional 400mm height. This provides excellent comfort and ergonomics.

VENEZIA RIMLESS

Elegance and refinement in harmony, with definitive styling and fine workmanship is evident in every detail of the new range of Venezia Rimless toilet suites.

ADVANCED RIMLESS DESIGN FOR HYGIENIC FLUSHING

The rim areas of traditional bowls are difficult to clean resulting in unhygienic grime and germ build up.

In contrast, rimless toilet suites are easily cleaned and the efficient flushing system provides a more hygienic day to day experience.

HIGH PERFORMANCE RIMLESS FLUSHING

Rimless toilets use a direct flushing system which distributes the flushing water around the pan more effectively. This results in better cleansing of the bowl.

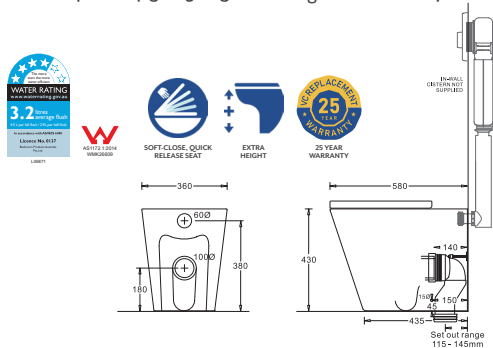

VENEZIA RIMLESS WALL FACED & WALL HUNG TOILET PANS

For bathrooms where space is limited, choose one of our new wall hung or wall faced rimless pans in combination with our in-wall cisterns. These short projection toilet pans provide exceptional compact solutions where space utilisation efficiency is essential.

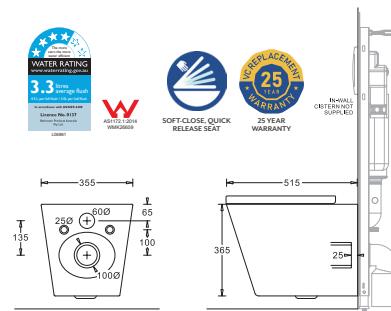

VENEZIA **COMFORT** RIMLESS
JTTV611.315 | **WALL FACED**

VENEZIA BASINS & VESSELS

Bold lines with ultra thin edges make the cosmopolitan Venezia basin range timeless and versatile suitable for any modern bathroom interior.

Produced with the unique scratch resistant TITANIUM technology, it is proven to be 30% stronger and 40% lighter than conventional vitreous china basins.

SCRATCH
RESISTANT

DURABLE

LIGHT
WEIGHT

TITANIUM

An innovative ceramic technology developed to provide bolder, minimalist designs. TITANIUM technology permits ultra-thin edges, only 3mm thick without compromising product strength or durability.

With the latest trends to slim, minimalist lines, TITANIUM is a unique technology that turns bold architectural ideas into reality. This innovative ceramic technology enables products to be fashioned along clean, engineered lines whilst increasing strength and durability compared to traditional vitreous china.

VENEZIA TAPWARE, SHOWERS AND ACCESSORIES

Johnson Suisse tapware combines superior functionality with a classic aesthetic appeal. Endurance tested to the highest standards, the premium quality ceramic disc cartridge provides the optimum level of durability whilst the innovative aerated water stream reduces noise and minimises splashing.

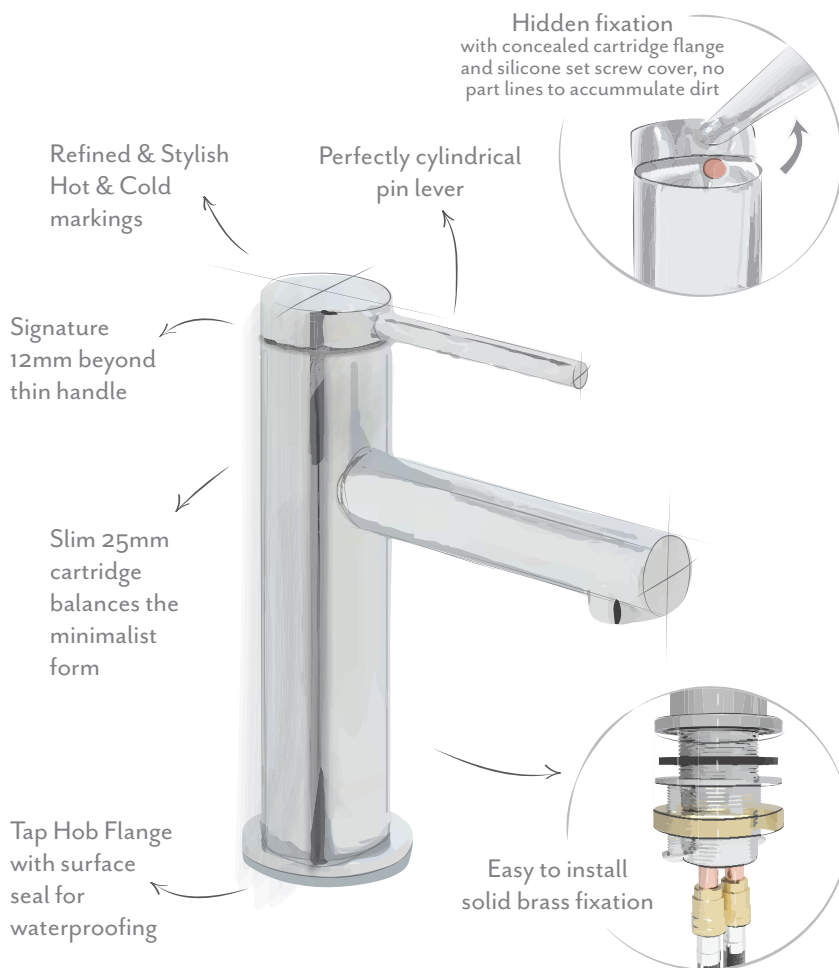

- Timeless & minimalistic design
- Ultra thin stylish pin lever handle
- Durable DZR brass construction
- Simple and secure fixing system
- Available in Chrome, Matte Black, Gun Metal, Brushed Nickel and Brushed Brass

Colour variation may vary across product types due to differences in construction materials and manufacturing process.

ENEZIA ALTERNATIVE FINISHES

Create a SEAMLESS BATHROOM design by using the Venezia range designed together to provide an ALL-MATCHING RANGE of tapware, showers & accessories.

PERSONALISE to your own taste by selecting from a range of COLOUR OPTIONS such as everlasting Chrome, bold Matte Black, confident Gun Metal, elegant Brushed Nickel or lavish Brushed Brass.

TECHNOLOGIES

E: ELECTROPLATING

FINGERPRINT PROOF

SCRATCH RESISTANT

Electroplating is a process that involves the use of an electrical current to deposit a thin layer of metal onto a conductive substrate. The process is done by immersing the substrate into a solution containing the metal ions that will be deposited, and then passing an electrical current through the solution.

PVD: PHYSICAL VAPOUR DEPOSITION

HARDEST MATERIAL

ENVIRONMENTAL FRIENDLY

PVD stands for Physical Vapor Deposition. It is a process used to deposit thin films of material onto a substrate. This is done by evaporating a solid material into a vapor and then depositing the vapor onto the substrate. PVD is an environmentally friendly process that produces no hazardous waste, making it a suitable alternative to other processes like electroplating.
